

Protect-A-Bed's bed bug bedding encasement system provides you with an effective tool in helping to manage a bed bug infestation.

At Protect-A-Bed we manufacture three separate encasements that help to effectively crash a bed bug population on your first visit and lessen the inordinate amount of time typically spent on the structurally complex bedding by restricting the movement of migrating bed bugs as well as, making them readily identifiable and easy to spot.

All of our bed bug encasements have been independently lab tested and scientifically proven to be completely bed bug proof.

Protect-A-Bed's bed bug mattress encasements are created with the proven Miracle Membrane backing which is:

- Waterproof
- Allergen Protector
- Dust Mite Barrier
- Cool & Quiet to sleep on

Every one of our encasements uses a patented **BUG LOCK™** enclosure system that incorporates a sealed safety trench that is stitched around the typically vulnerable zipper clasp as well as, micro-zipper teeth for an extra tight enclosure.

BUG LOCK™ zipper enclosure system.

Micro-zipper teeth Stitched safety trap

- Eliminates human error
- Safe even if zipper clasp comes undone
- Only **proven** way to seal an encasement from bed bugs

Protect-A-Bed's bed bug bedding encasements enable you to completely encase the mattress and box spring with comfortable material that is both effective and easy to use.

Protect-A-Bed's Mattress Encasements

Prevent

Bed Bug's from

- Invading
- Escaping
- Biting Through

They are

- Chemical free
- Easy to use
- Cool and Comfortable to sleep on

Bed Bug Encasements

PROTECT-A-BED

Protect-A-Bed's assortment of bed bug bedding encasements is a valuable tool in the fight against bed bug infestations. Protect-A-Bed's bedding encasements save you both time and money, by drastically reducing the amount of effort associated with addressing infested bedding.

Available Encasements include:

AllerZip™ is the premier mattress encasement we offer. It uses cotton terry cloth on the surface for the best in protection and comfort.

Depth available 6" - 18"

Machine wash **Hot** - Tumble dry **Medium**

The smooth polyester fabric of our pest control encasement is both rugged and effective. It is our original encasement that is tried and true.

Depth available 4" - 12"

Machine wash **Hot** - Tumble dry **Medium**

The jersey fabric of our Box Spring encasement allows for maximum airflow while keeping both the job and the encasement simple.

**The box spring encasement is neither waterproof or bite proof*

Depth available 6" - 9"

Machine wash **Hot** - Tumble dry **Medium**

"In my opinion, the best (bed bug) encasements designed are produced by Protect-A-Bed."

-Richard Cooper; Leading entomologist
